Grow with Sample Kits

Built for general partners who want more project flow — without warehouse risk.

No full stock needed

You do not need to carry finished products. One kit gives your studio a real tactile library clients can see, touch, and choose from.

Invest in kits, earn on projects

Your investment is the Sample Kit. Revenue comes when you convert showroom conversations into live kitchen, wardrobe, panel, and temple orders.

Stronger partner margins

Present premium looks early, quote with confidence, and protect your margin — architects, retailers, OEMs, and turnkey teams all win.

Studio & showroom ready

Use kits in client meetings, site visits, and display walls. Same finishes power our live product range — showcase more, sell more.

Next: pick the kits that match your studio focus.
